

**Question 26** (20 marks)

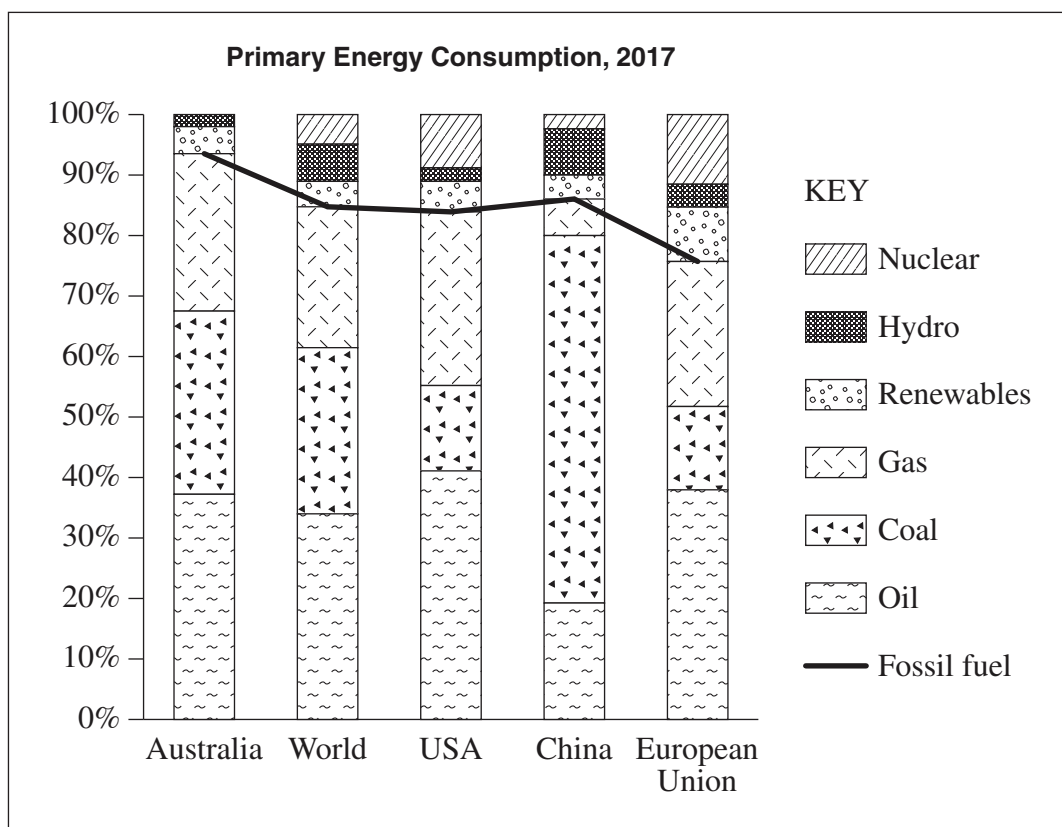

Assess the effectiveness of government economic policies and international agreements in the management of the environment in Australia. In your response, refer to the information provided.

With global emissions reaching record levels and showing no sign of peaking, the UN ... called upon all leaders to come to ... the Climate Action Summit with concrete, realistic plans to enhance their nationally determined contributions by 2020, in line with reducing greenhouse gas emissions by 45 per cent over the next decade ...

[At the Summit] ... there was also widespread concern that the world is presently way off course to meet the global target, as emissions continue to increase, and global temperatures rise.
